

Home energy improvements for Londoners

Making homes healthier, warmer and greener – at no cost to you

Your home comes first

Many homes in London could benefit from improvements to windows, doors, walls and heating systems that will help reduce energy bills and improve comfort. Your home has been identified by **Wandle**

as one that would benefit from improvements, which are designed to lead to:

- ✓ Healthier living – tackling damp and mould
- ✓ Greater comfort – warmer winters, cooler summers
- ✓ Lower bills – energy efficient homes cost less to run
- ✓ Peace and quiet – reduce noise pollution
- ✓ A greener future – clean energy for London

No cost to you

These improvements are being delivered by **Wandle** through Warmer Homes London, supporting home energy improvements across the city.

All improvements are fully funded and require no tenant contribution.

You can be confident that work is safe and high-quality, wherever you are in the city.

What could be included?

Each home is different, but improvements may include:

- New windows or doors
- Draught proofing
- Wall, loft or floor insulation
- Better ventilation
- Upgrades to old systems or heating controls
- Clean energy sources

Your role in a fairer, greener city

By improving your home, you're also helping London take climate action- building a healthier future for millions of Londoners.

What next?

You're invited to participate in a simple process:

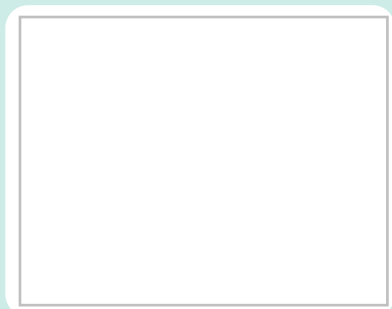

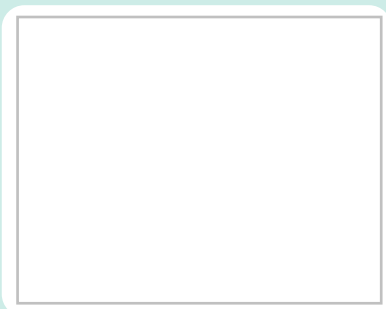

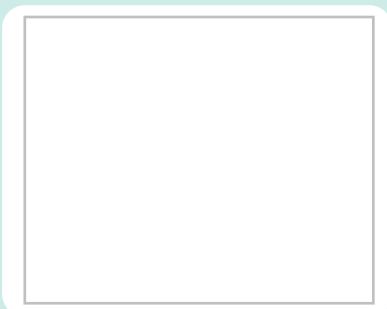

We will contact you via to arrange a home assessment at a time that is convenient for you.

A fairer, greener London starts at home

Building a healthier, fairer, greener

<area>

- one home at a time

What's happening?

Through Warmer Homes London, thousands of homes are being upgraded across the city, at no cost to residents, with improvements like:

- Insulation and draught proofing
- New windows or doors
- Modern heating and ventilation
- Clean energy sources

Why do green home improvements matter?

- ✓ Healthier living – tackling damp and mould
- ✓ Lower bills – energy efficient homes cost less to run
- ✓ Cleaner energy – supporting London's climate goals
- ✓ Peace and quiet – reduce noise pollution
- ✓ Stronger communities - warmer, safer, more comfortable living for the most vulnerable residents in

Together for London

Funded by the UK Government, and delivered in partnership with Warmer Homes London and housing providers across the city, this programme helps make sure that no one is left behind in London's journey to a greener future.

Every upgraded home means healthier, more comfortable residents, and a city better prepared for the future.
